Resolution No. 27-GA-14, CD1

"Relative to recognizing the need for establishing training opportunities leading to the attainment of certificates in the various construction skills, the employment of citizens of the Association of Pacific Island Legislatures (APIL) jurisdictions, and their participation in the Guam military build up."

WHEREAS, the military build up on Guam presents unique opportunities for employment in a wide array of positions in the construction industry; and

WHEREAS, there is a shortage of trained human resources in many of these certificated positions, which may make it necessary to offer newly-created positions to persons not from Guam, the United States, or its freely associated states if sufficiently trained and accessible human resources are not readily available; and

WHEREAS, it is the belief of the Association of Pacific Island Legislatures, 27th General Assembly, that there is a limited window upon which its constituents may receive the training necessary to compete for these valuable, good paying jobs; and

WHEREAS, the Association of Pacific Island Legislatures, 27th General Assembly, has identified certain regional organizations that can and may play a major role in the development of its human resources, such as the Guam Trades Academy, the University of Guam, the Guam Community College, the College of Micronesia-FSM, the Northern Marianas Community College, the College of the Marshall Islands, the Palau Community College, the American Samoa Community College, the Kiribati Technical Institute and other post-graduate institutions located throughout Micronesia and Polynesia; and

WHEREAS, it is the desire of the Association of Pacific Island Legislatures, 27th General Assembly, to harness these institutions’ resources and urge them to individually
and collectively embark upon an accelerated path to bridge the gap between the needs of employers and its citizens desiring to become employed by these same companies; and

WHEREAS, it is also the intent of the Association of Pacific Island Legislatures, 27th General Assembly, to provide these training opportunities within each of their respective jurisdictions so as to minimize the hardship upon its citizens to incur the costs of transportation, room and board, and other out-of-pocket costs in the attainment of these needed skills; and

WHEREAS, by providing these training opportunities to its citizens, and by its citizens embracing the training, the end result will be a better trained workforce that may be employed on Guam and benefit from the billions of dollars to be spent over the next 5-10 year period, rather than arriving with every intent to want to work but possessing few marketable skills and resorting to overburdened social programs for food, housing and welfare; now, therefore,

BE IT RESOLVED, that the Association of Pacific Island Legislatures, 27th General Assembly, Island of Guam, May 5-7, 2008, does hereby request that the Guam Trades Academy enter into agreements with the educational institutions within Micronesia and Polynesia to provide the sites for training opportunities in the construction industry; and

BE IT FURTHER RESOLVED, that each member legislature seek out contractors performing work within their respective jurisdictions and urge them to participate in the setting up of skills training by allowing their locally-hired employees to attend classes and receive on-the-job tutorship by certificated tradespersons; and

BE IT FURTHER RESOLVED, that this matter be given the utmost attention by each affected member’s executive branch of government so as to present a unified approach to the proposed solution at hand; and

BE IT FURTHER RESOLVED, that the President of the Association of Pacific Island Legislatures certifies; and the Secretary of the Association of Pacific Islands Legislatures attests to, the adoption hereof and that copies of the same be thereafter transmitted to the Presiding Legislative Officers and Chief Executives of each of the APIL member jurisdictions; to the Pacific Forum; and to the Secretariat of the Pacific
Community; to the Western Council of Micronesian Chief Executives; to the
Micronesian Presidents’ Summit; to the Training Director, Guam Trades Academy; to the
President, University of Guam; to the President, Guam Community College; to the
President, College of Micronesia-FSM; to the President, Northern Marianas College; to
the President, College of the Marshall Islands; to the President, Palau Community
College; to the President, American Samoa Community College; to the Chairman and
Members of the Board of Higher Education of American Samoa; to the President,
Kiribati Technical Institute; and to such other officials and regional organizations as the
APIL President deems appropriate.

DULY AND REGULARLY ADOPTED ON THE 7TH DAY OF MAY, 2008.

SABINO SAUCHOMAL
APIL PRESIDENT

WILLIAM NGIRAIKELAU
APIL SECRETARY
