Maynilad Water Services, Inc.

- Private water concessionaire for the West Zone of the Greater Manila Area
- 17 cities and municipalities = 540 km²
- Serves 8.2 million people
The New Maynilad

Key Achievements

- Early exit from corporate rehabilitation
- 44 ISO certifications
- Putatan Water Treatment Plant, the largest membrane-based and reverse osmosis treatment facility in the Philippines
- Recovery of close to 600 million liters per day of Non-Revenue Water

Inauguration of the Putatan WTR
Foreground, L to R: Maynilad Chairman Manuel V. Pangilinan, Philippine President Benigno Aquino III, former Maynilad President Rogelio L. Singson
Energy Efficiency

Energy Efficiency Measures:

• Shifting to solar-powered and LED lights
• Installation of Variable Frequency Drives
• Leak detection and non-revenue water recovery
From Water to Power

Water-to-Energy Solutions:

* Lucid Energy: produced by turbines installed within primary pipelines

* Biomass Energy: produced by anaerobic digestion of biodegradable wastes
Innovations in Technology and Regulation
